A2 D62  
UNITED STATES DEPARTMENT OF AGRICULTURE

Office  
Director of Information  
Washington

August 24, 1942

This copy of a ready-reference directory of administrative and information officers of Departmental and some other organizations was prepared for the convenience of the Office of Information Field Service men and Office of War Information. It seemed to have usefulness for certain other Department officers, and has been made available in mimeographed form in limited quantities. This is the scheme of organization:

STATE-BY-STATE: There is a sheet for each State, listing the principal administrative officer of each agency having State-by-State set-up, and designating by an asterisk officers assigned informational duties. Each State list also shows names of some other contacts with whom information men are likely to work.

REGIONAL LISTS: There is a section for each Departmental agency and for farm organizations. For each agency or organization are shown the principal regional administrative officer and the regional information officer, if any, is designated by an asterisk.

Because of changes in personnel, it is impossible to guarantee correctness, but an effort was made to have correct names as furnished to us by the agencies and organizations as of August 14, 1942. In order to keep the list up to date, it will be appreciated if each agency of the Department will notify Mrs. Ripple, Extension 4613, promptly of changes in this list.

*Morse Salisbury*  
Director of Information
